

CHRISTIAN I. ASUNCION

Antipolo City, Rizal | +639931321953 | christianasuncion013@gmail.com

OBJECTIVE

Motivated and detail-oriented Information Technology graduate with a strong foundation in software development, web development, database management, networking, and cybersecurity fundamentals. Seeking an entry-level opportunity where I can apply my technical knowledge and analytical skills to develop effective technology solutions. Eager to learn emerging technologies, continuously improve and adapt my skills, and take on new challenges that foster both personal and professional growth. Dedicated to contributing to the organization's success through innovation, collaboration, integrity, and a commitment to lifelong learning.

EXPERIENCE

Panasonic Manufacturing Philippines Corporation — OJT (500 hrs)| (February–June)

- Assisted in hardware-related IT tasks, including computer setup, troubleshooting, maintenance, and technical support for end users.
 - Performed basic diagnostics and preventive maintenance on computer systems, peripherals, and network-connected devices.
 - Provided support in monitoring and resolving hardware and software issues to ensure smooth business operations.
 - Gained hands-on experience in using the SAP (Systems, Applications, and Products) System for sales-related processes, data management, and transaction monitoring.
 - Developed practical skills in information technology support, hardware management, enterprise systems, and workplace communication.
-

PROJECTS

EduRun Game

- Built an educational Run-to-Learn game using Unity and C#, with a web-based admin system using HTML/CSS, PHP, SQL.

Web-Based Learning Management System

- Constructed a Learning Management System (LMS) utilizing HTML/CSS, PHP, JavaScript, and SQL, streamlining role-based access for teachers and students.
- Implemented functionality for activity uploads, submissions, and grading workflows, enhancing user engagement and educational management.

Task Management App

- Developed a task management application in Android Studio using Kotlin, enabling students to organize, schedule, and manage ongoing tasks effectively.
- Integrated a PHP and SQL backend to support real-time data processing and user completion tracking.

Expense Tracker

- Created a mobile expense tracking application using Flutter and Firebase, empowering users to record and categorize daily expenses.
 - Facilitated real-time data synchronization for transaction history, enhancing personal finance management.
-

TECHNICAL SKILLS

Programming Languages: C# , PHP, Java ,JavaScript,Python, Kotlin, SQL

Web Development: HTML5, PHP, React,JavaScript

Mobile Development: Flutter, Android Studio (Kotlin)

Tools & Technologies: Firebase, Git, SAP (Systems, Applications, and Products)

IT Support & Networking: Computer Troubleshooting, Hardware Installation and Maintenance, Technical Support , Networking Fundamentals

Cybersecurity: Cybersecurity Fundamentals , Security Best Practices

SOFT SKILLS

Problem Solving, Communication, Adaptability, Willing to Learn, Work Ethic, Time Management

EDUCATION

BS in Information Technology <i>Our Lady of Faima University</i>	(2022–Present)
Senior High School <i>Our Lady of Faima University</i>	(2018–2020)
Junior High School <i>Dela Paz National High School</i>	(2014–2018)

CERTIFICATE

-
- AI FUNDAMENTALS WITH IBM SKILLBUILD (June 29, 2026)
 - The Digital Fabric: AI Imperatives and Risk, Quantum Computing, and Automated Business and Multimedia Augmentation (December 1, 2025)
 - Beyond the office: Adapting to a new era of remote IT Support (November 5, 2024)
 - Cybersecurity Awareness: Protecting Yourself Online (October 22, 2025)
 - Infrastructure and Cloud Computing (November 5, 2024)
 - Intro to Game Development and Web Development (October 29, 2024)
 - Unlocking GoHighLevel: Essential tools for CRM Success (October 26, 2024)
 - Getting Ghosted: Facing Cybersecurity 2024 (October 22, 2024)
 - Introduction to SQL (October 29, 2023)
 - IT Flexperience (May 31, 2022)
